## Some words from our clients ...

"We needed to update our kitchen and Mulberry were recommended to us by our friends. Robert came to our home and straight away put us at ease and we felt in very good hands. He asked lots of questions and even my height, I am a cook by profession so knew what I needed in terms of space and cupboards. We were advised on the appliances especially our wine chiller, nothing was too much trouble. A very professional company and approachable when discussing changes or amendments to the original designs. Very happy to recommend Mulberry."

**MRS GEORGE, BLUNDESTON**

"We live in a Victorian terrace house with a long narrow kitchen and no straight walls so we were looking for a local kitchen company who made bespoke kitchens. Mulberry came up on the search engine and we went to the showroom in Beccles. We were so impressed with Robert and saw in the showroom the kitchen we were looking for so did not bother with any other quotes. He designed a breakfast bar which is one of our favourite parts of the new kitchen. They undertook everything for us from building work, putting in a cloakroom, underfloor heating and tiling. Great tradesmen throughout, no hitches, and everything ran smoothly. Would highly recommend them to anyone considering a new kitchen."
